**“Land Acquisition, Rehabilitation,  
Forest and Environmental  
Clearance of Projects”**

**With**

**Recent Laws of Fair Practices in India**

**Version: 08**

**11<sup>th</sup> year Anniversary of the Course**

**Course Code: “LARECP”**

**One of a  
kind course  
in India**

## 1. Introduction

**Land acquisition** has got a new dimension after the passing of the new LARR Act'2013. In a way it has given a new subject of discussion, "Land and People Management". Today land acquisition is linked to compensation, rehabilitation and corporate social responsibility. **Forest and Environment** clearance is, without much doubt, also one of the most important factors for project delay and cost overrun for all kinds of industrial and public project activity, large or small. Much of these arise from the mismatch of expectations among three parties – the developers, the regulators, and the stakeholders.

Additionally. In the recent years important laws like **Prevention of Money Laundering Act, Prevention of Sexual Harassment Act and Contract labor Act** have been made to make the people in charge of such activities to be sensitive of such issues at the workplace.

What started in the Environment Protection Act, 2006 for a few select industries and activities, today span over almost all public activities that have some form of discharges in the environment. With the environmental problems exacerbating, more and more stringent norms are coming in place.

With this in mind the IIT, Kharagpur with resource personnel co-operation from the IBM, MoEF, PCB, DFOs and other relevant agencies has designed a short term course for the executives of the industry, civic and public services and affairs to be held under the auspices of IIT, Kharagpur **from 05.02.2024 to 09.02.2024.**

## 2. Topics and Coverage
