

INDIAN INSTITUTE OF TECHNOLOGY KHARAGPUR

Centre for Rural Development and Innovative Sustainable Technology (CRDIST)

Smallholder agriculture in South-East Asia, particularly in regions like India, faces significant market failures that often leave farmers in distress, sometimes even leading to tragic outcomes such as suicides. Research has shown that collective action can be a powerful solution for improving farmers' livelihoods and overcoming these market challenges. Farmer Producer Organizations are one such model, offering smallholders a structured, member-based entity whether in the form of a producer company, cooperative society, or other legal federations that promotes collective participation and strengthens their bargaining power. In light of this, the Centre for Rural Development and Innovative Sustainable Technology (CRDIST), in collaboration with the Department of Science and Technology of the Government of India, is organizing a one-day training and capacity-building workshop focused on the *Management and Governance of Farmer Producer Organizations*. This workshop aims to equip smallholder farmers, particularly those from the Kharagpur sub-division-I, with the knowledge and skills to establish their own agri-business ventures, ultimately fostering wealth creation and sustainable rural livelihoods.

Objectives

- To build a support ecosystem for smallholder agribusinesses
- To foster an entrepreneurial mindset among smallholder farmers
- To develop knowledge of FPO formation, governance, & management skills for success
- To provide training and capacity building for smallholders, particularly SC & ST farmers
- To accelerate smallholders' agriculture into a sustainable enterprise

Potential attendees

Small vegetable farmers (35-40 small farm holders from Kharagpur sub-division-l)

Major focus areas

The workshop aims to discuss;

- Concept behind collective action and FPO
- Pathways for sustainable agribusiness and food economy
- Advantages of FPO formation
- FPO registration procedure
- Necessary documents for registration and by-laws
- Role and responsibilities of stakeholders in an FPO
- Governance and management skills for sustainable agri-ventures
- Membership responsibilities and benefits
- Schemes and initiatives for FPOs

Advisory Committee

- Head, CRDIST, IIT Kharagpur
- Associate Head, CRDIST, IIT Kharagpur

Organising Committee

- Prof. P.K. Singh, Faculty, CRDIST, IIT Kharagpur
- Mr. Anirban Pal, Research Scholar, CRDIST, IIT Kharagpur
- Mr. Kripamay Baishnab, Research Scholar, CRDIST, IIT Kharagpur

Contact

- Mr. Anirban Pal [Research Scholar, CRDIST, IIT Kharagpur; anirban.pal2018@iitkgp.ac.in]
