The IIT Kharagpur in collaboration with the University of Edinburgh planning to organize a one-week online workshop from 31 July – 04 August 2023.

“RESPONSIBLE RESEARCH AND INNOVATION IN INDIA’S ENERGY-WATER-FOOD-HEALTH NEXUS”

- **Activities:** Lectures, group discussions, poster tasks, group research project.
- **Participants:** PhD scholars from both The University of Edinburgh and IIT Kharagpur who are interested in facilitating the project work are encouraged to apply. The course is also open to all 2nd year or above UoE undergraduate students and post-graduate from both The University of Edinburgh and IIT Kharagpur with an interest in the topic.
- **How to apply:** Please complete the online application form [https://docs.google.com/forms/d/13-VshdywqMdmK3xFgczuH4eMmn2DDbVRtYk-CZ6E0U0/edit](https://docs.google.com/forms/d/13-VshdywqMdmK3xFgczuH4eMmn2DDbVRtYk-CZ6E0U0/edit) by Friday 28th July 2023.

If the students have a passion to learn about and contribute to sustainable development in an international context, then this week-long summer programme will give a unique opportunity to explore some key challenges from the Indian perspectives. Water, energy, food, and health are all critical to human and planetary sustainability, and each of these intersects with the other three in finding solutions to current problems. The workshop will comprise around 20 research scholars and 20 UG/PG students engaged in lectures, discussions, and problem-solving activities based on real-world examples from both urban and rural India. Students from all disciplines are welcome to apply. The workshop will be held online and will run from approximately 02:00 PM – 18:30 PM (IST) or 09:30 AM – 02:00 PM (BST) from 31 July (Monday) – 04 August (Friday) 2023.
