ABOUT RGSoIPL

Established in 2006 as the pioneering institution of its kind within the IIT system, RGSoIPL has been a trailblazer in integrating technology and law. While other institutions have also ventured into this domain, RGSoIPL proudly stands as the sole law school with an unwavering focus on technology.

Our primary goal is to cultivate lawyers who possess legal expertise and a profound interdisciplinary understanding, particularly in the intersection of technology and law. We are committed to fostering holistic growth, with research at the heart of our educational mission.

The remarkable achievements of our students and alumni in a relatively short span are a testament to the exceptional pool of skills and abilities that RGSoIPL has fostered. As a premier law school of the nation, we continue to set the standard for excellence in technology-focused legal education and research.

ABOUT MCIP 6.0

Building upon the success of MCIP 1.0 up to 4.0 and 5.0, both nationally and internationally, we are pleased to introduce MCIP 6.0 in 2026, themed "Exploring the Interdisciplinary Context of IP for Global Progress". The theme highlights how intellectual property interacts with technology, media, business, traditional knowledge and various other fields of study to shape contemporary societies and economies. It emphasizes understanding IP not only as a legal tool but as a driver of innovation, cultural expression, and equitable development at a global level. Within this broad framework, the conference will encompass a broad range of sub-themes that aim to showcase how interdisciplinary and all-encompassing IP discourse can be.

Our objective is to offer a platform for master's students, scholars and aspiring professionals from various domains, including law, engineering, science, philosophy and any field related to the theme to engage in fruitful discussions, present their perspectives and participate in the wonderful array of events we have planned.

WHAT SETS US APART

MCIP is a conference tailored for Masters level students focusing on Intellectual Property and related areas. The conference offers invaluable insights into the practical aspects of the expansive field of Intellectual Property. Participants have the opportunity to network with industry practitioners and esteemed academicians.

MCIP is open to all Postgraduate students, Academicians, and Practitioners, welcoming both national and international participants. The conference provides a unique exposure to the expertise of IIT Kharagpur in the realms of intellectual property, science, humanities and management, as well as their interconnected fields.

SUB-THEMES

1. IP, Equity and Public Interest
2. Global Institutions and shaping policies on IP
3. Cross border IP Disputes and Global Cooperation
4. IP and Access to Knowledge
5. IP, Climate Change and Sustainable Development
