

ICFM 2020

INTERNATIONAL CONFERENCE ON FUNCTIONAL MATERIALS
MATERIALS SCIENCE CENTRE
INDIAN INSTITUTE OF TECHNOLOGY KHARAGPUR

January 06 – 08, 2020

Chairman

Prof. Pallab Banerji

Convener

Prof. S. Banerjee

Co-Convener

Prof. C. Jacob

Secretary

Dr. D. Pradhan

Jt. Secretary

Prof. B. B. Khatua

Materials Science Centre, Indian Institute of Technology Kharagpur is organizing an international conference during January 06-08, 2020. This is third such international conference held in every three years. The first and second were held in Feb 2014 and Dec 2016, respectively.

The primary objective of this conference is to exchange knowledge among researchers, practicing engineers, technologists about the state-of-art in functional materials and their applications. Motivating young scientists, budding technologists and entrepreneurs in these fields to enrich their knowledge by interacting with their peers in their respective areas is a prime goal of the conference. The conference will be attended by research students, academics, personnel from Industry and R&D and manufacturers of various machineries and test equipments.

TENTATIVE TOPICS

- Functional polymers, ceramics, and semiconductors
- Nanomaterials, thin films, and composites
- Photonic and thermoelectric materials
- Membranes for fuel cells and gas separation
- Energy storage materials and technologies
- Sensors and actuators
