

AICTE-QIP Sponsored Short Term Course A Continuing Education Program of IIT Kharagpur

IP management of academic and research institute

Organized by Rajiv Gandhi School of Intellectual property law IIT Kharagpur, Kharagpur, India-721302

Course dates: 4th -10th March, 2019 Last date of registration: 31 Jan 2019 Announcement of shortlisted candidate: 15 February, 2019

Venue: Rajiv Gandhi School of Intellectual Property Law IIT Kharagpur E mailgouri@rgsoipl.iitkgp.ac.in 91- 3222-284874

According to World Intellectual Property Organisation (WIPO), intellectual property (IP) is the creation of mind such as inventions, literary and artistic works, and symbols, names, images, and designs used in commerce. IP, as a key intellectual asset of an organization, empowers the organization to collect the complete value of their intellectual input. It is not just IP generation that helps in growth and development, but its efficient management determines its role for wealth creation and well-being of the society. In this era of rapidly changing IP regimes, it is the need of time to identify and efficiently utilize intellectual assets owned by an organization. IP management (IPM) is a multifaceted discipline concerned with IP generation, protection, and exploitation catering to fast changing market demands across the globe. IPM of academic institutes in India is a big challenge. Although, there is availability of huge intellectual capital and enough resources to develop a new process or products, lack of availability of enough IP experts affects IP generation and commercialization. This course is designed considering these above-mentioned facts. This course will touch base upon various IPM related processes (100 + IPM related processes) required for IPR cell development and its self-management.

Principal course coordinator: Prof. (Dr.) Gouri Gargate **Co-coordinator:** Prof. (Dr.) M. Padmavati

 Introduction to Intellectual Property Management Academic institute and possible types of IP generation Student project activities and IP generation Lifecycle of patent- generation, protection, commercialization IPR cell development and self-assessment of IPR cell Research planning in academic/research institute IP Policy for academic and research organizations Technology transfer Introduction to advanced domain of IP: IP audit, IP valuation Eligibility for Participation: Faculty members from the AICTE-QIP approved Institutions Minimum Qualification: Master's Degree in Engineering and science How to apply: All candidates should apply online by clicking "APPLY for CE Events" under EVENTS section in the IIT Kharagpur web-portal www.iitkgp.ac.in or directly at https://erp.iitkgp.ac.in/CEP/courses.htm Click on How to Apply at the top the page.
