

JUNE 1 - 2, 2023

A Brainstorming Workshop on Technology Vision 2047 & Climate Change

<u>Technology Independence</u>
Vision of a self-reliant & climatic resilient developed India

Venue IIT Kharagpur

Program Overview

In response to the call by Honorable Prime Minster of India, TIFAC is in the process of drafting Technology Vision 2047 with a narrative Technology Independence — A self-reliant & climatic resilient developed India. The key aim of this workshop is to capture both fundamental and applied future research areas which can place India as an independent leader and extend support to other nations. Through this exercise, IIT Kharagpur would like to contribute in this mission by capturing aspirations of future India, blue sky research vision and path for achieving these. In this two-day event, eminent experts and bright students would participate, deliberate and come up with their technology visions for India in five thematic areas.

Jointly Organized By: IIT KHARAGPUR

TIFAC, DST, GOVT. OF INDIA

Thematic Areas:

PRECISION AGRICULTURE & FOOD
NUTRITION
ENERGY AND ENVIRONMENT
AFFORDABLE HEALTHCARE
ADVANCED MATERIALS
ADVANCED TRANSPORTATION

Distinguished Experts from Academia, Industry and R&D Labs to Talk and Brainstorm on Futuristic Technology Ideas for India

Students, please share your technology aspirations by 01.05.2023

Selected Students will be provided travel support and local hospitality to participate in student's conclave where they will brainstorm with experts and contribute in shaping India's technological development
