INTRODUCTION

With the advancement of computational technology, analytics has become an inevitable part of business. For gaining competitive advantage through data driven decision making, managers should be able to marry raw data with business acumen. In this program, we will try to do the same. The program is targeted to create data analysts and introductory data scientists with focus on managerial applications of analytics.

OBJECTIVES OF THIS COURSE

- This programme will teach the participants hands on usage of R programming
- It will also teach the participants data analytics skills and its applications in real world situations
- The programme will help the participants use the acquired skills in solving assignments which will mimic real case studies.

KEY FEATURES

- Learn from IIT Kharagpur faculty and industry leaders
- Weekend program (Starting from 1st May 2021)
- 15 hours interactive training
- Certificate from VGSOM and IIT Kharagpur, Continuing Education Program
