Category C: Academicians/ Others, Rs. 7000/-

Category D: Students (Postgraduate) Rs. 4000/-

OBJECTIVE OF THE COURSE

Infrastructure is considered as the wheel, if not the engine of development. The deficiency of infrastructure will certainly hamper sustainable economic growth. In most of the developing countries including India, the status of infrastructure is low as compared to the need of the respective countries. While the demand for infrastructure is growing at a much faster rate, supply is more or less stagnant. This is mostly due to the rapid urbanization and globalization taking place across the world. Globalization, and global competitiveness. The objective of this programme is to emphasize broad range of issues & challenges and tools & techniques for infrastructure development. It is predominantly relevant for studying dynamic changes in the economy, particularly with reference, urbanization, and global competitiveness.

TOPICS TO BE COVERED

Module 1: Introduction to Infrastructure and Project Finance

Module 2: Economic Analysis of Infrastructure Projects

Module 3: Financial Analysis of Infrastructure Projects
