ABOUT PRAKRITI.....

Prakriti is an Agri-Mangement Workshop by the students of Agricultural and Food Engineering Department, Indian Institute of Technology, Kharagpur. We target the amalgamation of academia and industry associated with the agricultural and food sector. Prakriti aims to provide a conduit for budding innovators and scholars from institutes across the country to interact with each other and the industry, citing a more practical aspect to technical education acquired on the academic front and at the same time, aiding enterprises to exploit the technological achievements for their own benefit.

THEME

This the 11th edition of our journey. This year the workshop will be focusing on "Beverage Swiat" ...

EVENTS

* Guest Lecture

Agripreneurship Summit :

The main emphasis of the summit has always been on exploring the potentials of Agripreneurs in terms of combining entrepreneurial skill and modernization in field of agriculture. They can play the role of catalysts in transforming the traditional farmer into a modern agripreneur with distinct traits and skills to exploit opportunities prolific in the field of agriculture.

* Conference

1. POSTER PRESENTATION :

Poster design is an expression of thoughts and technical prowess to bring out the innovative ideas in the field of agriculture. This competition provides an excellent platform for students to show their creativity and presentation skills. The poster can be about anything you want but with one constraint: it must be inspired from the field of agriculture and food engineering.

2. PROD-D :

Prakriti in association with design and innovation center(DIC), IIT Kharapur presented Prod-D. Designing a new product goes through an analytical process and relies on a problem-solving approach to improve the quality of life of the end user and his or her interaction with the environment. It is about problem-solving, about visualizing the needs of the user to bring out sustainable solutions for the society.

3. Manthan : Case Study in the field of Food Industry.

4. Quizella : Informatory session in the field of agriculture.

5. Online Quiz : Quiz completely based on agriculture and food Eng.

6. Data Analysis : Study of innovative agriculture techniques.
